1. GAME INTRODUCTION

GOAL-SCORING MOMENT is a soccer-themed hidden-role card game for 2-8 players, ages 14+.

Players attack and defend while protecting their own hidden Goalkeeper and trying to identify the opposing Goalkeeper.

No soccer knowledge is needed. The game is designed for family game night, friends, teens, and adults.

2. FOUR WAYS TO PLAY

STRATEGY MODE

The original main game. Play in teams, attack and defend, and protect your hidden Goalkeeper.

CASUAL PARTY MODE

A faster free-for-all version using the same deck. Draw SOCCER twice and you are out.

MATH CHALLENGE MODE

Build scoring pairs and card combinations, then compete for the highest total score.

STRATEGY MODE 2

A no-team hidden-role variation focused on bluffing, deduction, and finding the hidden Goalkeeper.

3. MAIN GAME - STRATEGY MODE

Strategy Mode is the original main game included with the box.

Each player receives a hidden role and a starting hand of action cards. Reveal your team color, but keep the Goalkeeper identity hidden.

Use rock-paper-scissors to decide which side attacks first.

4. STRATEGY MODE - HOW TO PLAY

1. On your turn, draw 1 card.
2. To attack, play SHOOT together with the SOCCER card and choose an opponent.
3. DEFENSE or TACKLE may be used to stop the attack.
4. DRIBBLE PAST can be used on your own turn to bypass DEFENSE or TACKLE. Defenders may respond again if able.
5. If a second defensive response is used after DRIBBLE PAST, the defender must discard 1 extra card.
6. If the attack succeeds, the target receives 1 soccer token.
7. A player with 3 soccer tokens is eliminated and reveals their role.
8. If the eliminated player is the Goalkeeper, that team loses immediately.

5. STRATEGY MODE - CARD FUNCTIONS

IMPORTANT: The card functions below apply to STRATEGY MODE only.

The same physical cards can have different functions in Casual Party Mode, Math Challenge Mode, and Strategy Mode 2. Use the interactive tutorial for the correct rules of each mode.

SOCCER	Used together with SHOOT to make an attack.
SHOOT	Attack one opponent. A valid attack requires SHOOT + SOCCER.
DEFENSE	Stops SHOOT + SOCCER or DRIBBLE PAST.
TACKLE	Stops an attack and gains possession of the SOCCER card. It can also take SOCCER from a teammate. TACKLE can be blocked by DEFENSE.
DRIBBLE PAST	Play only on your own turn to bypass DEFENSE or TACKLE. After DRIBBLE PAST, defenders may respond again with DEFENSE or TACKLE.
YELLOW CARD!	Play only on your own turn. The next player's action is skipped.

6. OTHER MODES - USE THEIR OWN RULES

CASUAL PARTY MODE

A faster free-for-all version using the same deck. Draw SOCCER twice and you are out.

MATH CHALLENGE MODE

Build scoring pairs and card combinations, then compete for the highest total score.

STRATEGY MODE 2

A no-team hidden-role variation focused on bluffing, deduction, and finding the hidden Goalkeeper.

CHOOSE A MODE AND PLAY THE INTERACTIVE TUTORIAL

Each mode has its own setup, card functions, and win condition.
